

CSC TALK RADIO

Mission Statement

Our mission is to preserve and protect Independence in America; by speaking the truth, standing for our Constitution, honoring God and family.

At CSC Talk Radio we believe that educating the masses is the way of free people. While there is much corruption in our country there are also good people eager to be informed.

Reporting the truth of new legislation, executive orders, bureaucratic mandates and more as well as providing solutions is our goal. It isn't enough to just talk about the problems; CSC Talk Radio strives to provide solutions and avenues for the American-patriot voices to be heard.

At CSC Talk Radio we believe:

Rural America is under attack. Private Property Rights are under attack. Independent America is under attack. We believe it is our duty to preserve our Constitution and defend American citizens from government control.

At CSC Talk Radio we are about family – we are about acknowledging God (Christianity) placing Him back in our lives as the head of our families and our country. We believe in the First Amendment as intended to preserve religious freedoms for the people from the government.

We choose to stand on Biblical Principles and our US Constitution as our guides for true freedoms and liberties.

CSC TALK RADIO - GOAL

CSC Talk Radio's Goal... "Bring America Home" to her roots of God, Honor, Integrity and Freedom - INDEPENDENT AMERICA AGAIN!!!
